- B) Driver's medical history form
- C) State driver licensing application
- D) Insurance verification form

Analysis: The correct answer is A) Medical Examiner's Report Form (MCSA-5875). This form documents the exam findings and certifies the driver's fitness. The other options are not standard documentation for the medical exam.

Question 4:

An examiner notices a driver has a visual acuity of 20/50 in each eye with correction. Is this acceptable under FMCSA standards?

- A) Yes, since visual acuity with correction meets the standard
- B) No, visual acuity must be 20/40 or better in each eye
- C) Yes, if the driver passes a visual field test
- D) No, drivers must have 20/20 vision without correction

Analysis: The correct answer is A) Yes, since visual acuity with correction meets the standard. FMCSA standards require at least 20/40 vision in each eye with correction, so 20/50 with correction is acceptable.
